## Chiropractor

a natural solution!  
03 443 7055

**Dr Anthony Barnett**  
B.Chiro, M.Chiro,  
Exercise Sports Specialist

A simple preliminary spinal check up by a Chiropractor can detect the possibility of spinal misalignments and nerve irritation. Chiropractors are doctors trained to detect the subtle spinal imbalances that lead to nerve dysfunction. Interestingly, these *altered nerve impulses can be responsible for organ and health issues as well as back pain.* Spinal misalignments weaken your nervous system and set the stage for poor health. I know that Chiropractic checkups and spinal adjustments ensure that your spine is free of this damaging stress, allowing your nerves to be healthy and strong.
